3. Arrays & Strings

Problem 1: Maximum and Minimum in Array

Given an array of N integers, find the maximum and minimum elements.

Input:
N
Array elements

Output:
Max Min

Problem 2: Array Left Rotation

Rotate the array to the left by D positions.

Input:
N
Array elements
D

Output:
Rotated array

Problem 3: Count Even and Odd

Count number of even and odd elements in the array.

Input:
N
Array elements

Output:
EvenCount OddCount

Problem 4: Second Largest Element

Find the second largest element in the array.

Input:
N
Array elements

Output:
SecondLargest

Problem 5: Row-wise Sum of Matrix

Find sum of each row in a matrix.

Input:
Rows Columns
Matrix

Output:
Row sums

Problem 6: Palindrome String

Check whether the given string is a palindrome.

Input:
String

Output:
Palindrome / Not Palindrome

Problem 7: Count Vowels

Count number of vowels in the given string.

Input:
String

Output:
Vowel count

Problem 8: Character Frequency

Count frequency of a given character in a string.

Input:
String
Character

Output:
Frequency

Problem 9: Longest Word

Find the longest word in a sentence.

Input:
Sentence

Output:
Longest word

Problem 10: Names Starting with Character

Count names starting with a given character.

Input:
N
Names
Character

Output:
Count
